U5 For a shared future

Unit overview

The title “For a shared future” emphasizes cooperation, mutual benefit, and global responsibility. It reflects the vision of building an interconnected world where nations work together to address common challenges and achieve sustainable development. The phrase suggests that the future is not determined by any single country but rather by collective efforts, highlighting the importance of cooperation, multilateralism, and cultural exchange in fostering peace and prosperity. This unit explores China’s diplomatic principles and initiatives aimed at building a better world, as well as global efforts to achieve a prosperous, secure, and civilized future. The Understanding China section introduces Zheng He, China’s renowned sea explorer, whose seven voyages promoted peace and cultural exchange across more than 30 countries, influencing China’s foreign policy today. It also traces China’s diplomatic evolution from the 1955 Bandung Conference to its commitment to a global community of shared future. The Exploring the World section is about the ways countries around the globe attain a thriving, safe, and culturally advanced future. Additionally, in Communicating with the World, Ss are asked to write a position paper on China’s vision for a better world.

思政元素清单

Understanding China — Viewing

- 和平发展是中国长期以来一贯坚持的政策。
- 推动共建“一带一路”更高质量发展，构建全球发展共同体。

Understanding China — Reading

- 和平共处五项原则是中国独立自主和平外交政策的基石。
- 中国坚定维护以联合国为核心的国际体系，为推进世界和平与发展事业做出越来越大的贡献。
- 中国实际行动打造全球公共产品与合作平台，致力于实现全球互利共赢与共同发展。

Exploring the world — Reading

- 各国应携手合作，推动全球可持续发展，共同建设一个更加繁荣和谐的世界。
- 国际社会需加强合作，共同制定规则，共享经验，营造安全稳定的全球环境。
- 文明之间应加强对话与互鉴，倡导包容开放，推动全球文明和谐共生，构建人类命运共同体。

单元开篇

Quote

中国始终是世界和平的建设者、全球发展的贡献者、国际秩序的维护者、公共产品的提供者，将继续以中国的新发展为世界提供新机遇。

——2021 年 9 月 21 日，习近平在第七十六届联合国大会一般性辩论上的讲话

Key facts about China

The key facts in this unit are closely related to major-country diplomacy with Chinese characteristics. Each key fact highlights one or two aspects of China's diplomatic efforts and achievements.

Key fact 1: This fact indicates that China's Global Development Initiative (GDI), Global Security Initiative (GSI), and Global Civilization Initiative (GCI) are being implemented at an accelerated pace. It highlights the global acceptance and recognition of China's contributions to addressing common global challenges. Here, the Group of Friends of the Global Development Initiative means "全球发展倡议之友小组" in Chinese. As an important platform for cooperation based on the principle of extensive consultation, joint contribution, and shared benefits, the Group of Friends of the Global Development Initiative represents a major step forward in building the mechanism for GDI cooperation.

Key fact 2: This fact reflects China's expanding global diplomatic relationships and its commitment to strengthening international cooperation.

Key fact 3: This fact shows China's long-standing tradition of supporting global development through tangible infrastructure projects, exemplified by the historical construction of the Tanzania-Zambia Railway in Africa.

*** T can guide Ss to access the digital textbook for the latest information and data on Ucampus.**

Teaching suggestions

The following steps help Ss develop a nuanced understanding of China's diplomatic principles and initiatives. The sequence then transitions from theoretical concepts to practical actions, effectively capturing Ss' interest and equipping them for the unit project.

Step 1: Start by presenting the unit title. Ask Ss to briefly discuss what the title means. Guide Ss to interpret the quote of the unit, emphasizing China's diplomatic stance and global contributions in four dimensions.

- **A builder of world peace:** China advocates peaceful coexistence, seeks diplomatic resolutions to conflicts, and promotes international stability through cooperation.

- **A contributor to global development:** China actively participates in international initiatives and provides substantial aid, investment, and development assistance aimed at improving global prosperity and well-being.
- **A defender of the international order:** China supports multilateralism, respects international norms, and upholds the role of global institutions like the UN in maintaining fairness and equity.
- **A provider of public goods:** China actively delivers global public resources, such as infrastructure, health assistance, and humanitarian aid, benefiting the international community.

Step 2: Have Ss review and retell the key facts about China's diplomatic efforts and achievements. Organize them into small groups to discuss which aspect of China's diplomatic efforts and achievements is reflected in each fact.

Step 3: Use the Scenario to stimulate Ss' global and intercultural thinking, enabling them to talk about China's diplomatic stance and describe China's achievements and the measures it has taken toward realizing this vision.

Step 4: Have Ss read the unit's learning objectives, and explain what these objectives mean and how they relate to the unit's content. Remind Ss that these objectives serve as a guide for self-assessment, helping them evaluate if they can achieve them after learning this unit.

Understanding China

Both materials in this section touch upon the theme of China's diplomacy, the main aims of which are peace and cooperation. The video exemplifies ancient China's peaceful diplomacy, as well as its implications in modern times. The reading material reviews China's diplomatic journey since the founding of the People's Republic of China, highlighting the country's continued commitment to peaceful development, cooperation, multilateralism, and active participation in initiatives such as the Belt and Road Initiative, global development, security, and civilization initiatives, all aimed at building a global community of shared future. From the video to the text, the materials combine to show how China has inherited the spirit of peaceful development and how it advances this spirit in its modern diplomatic practices.

The teaching of the video material should emphasize the peaceful principles of Zheng He's voyages, their significance, and China's contemporary diplomatic practices aimed at promoting the world's peaceful development. The teaching of the text should focus on key modern diplomatic events and China's evolving international role. Teaching difficulties may lie in linking ancient and modern diplomacy and analyzing the changes in China's role and diplomatic impact.

The materials provide an opportunity to explore how China contributes to world peace and development, how China safeguards the international order, and what public goods China provides to the world. These initiatives align with the concept of building a global community of shared future, a key aspect of President Xi Jinping's vision for global governance.

Sample answers

1

- **Picture A**

  Key words: Zheng He, seven voyages, advanced shipbuilding and navigational techniques

- **Picture B**

  Key words: respect to all, embodiment of peace and friendship

- **Picture C**

  Key words: maritime security, escort missions, rescue operations

- **Picture D**

  Key words: maritime medical rescue operations, medical aid

- **Video prediction**

  Based on these images, it can be inferred that the video explores China's historical and modern maritime activities, emphasizing the enduring spirit of peaceful development passed down from the past to the present. It may start with Zheng He's historical voyages, highlighting China's early explorations and peaceful diplomatic efforts. The video might then transition to modern times, showing how these historical principles influence current naval operations and international cooperation.

Scripts

China's greatest naval explorer, Zheng He, commanded fleets on seven voyages during the Ming Dynasty. Between 1405 and 1433, his huge fleet arrived in over 30 countries in Southeast Asia, South Asia, and even Mogadishu in East Africa. These unprecedented voyages were characterized by advanced shipbuilding and navigational techniques. They predated Christopher Columbus' discovery of the new continent by more than half a century. It is widely believed that Zheng He's expeditions heralded the Grand Voyages. Even with the largest fleet in the world at that time, China had no desire to exploit or plunder other lands and indeed did not. Instead, Zheng He's fleet showed respect to all they encountered. In fact, they carried messages of friendship, helped locals build cities and combat piracy, and imparted skills such as shipbuilding and farming. Sailors took with them a treasure trove of exquisite goods, including silk and porcelain. They were also treated with local specialties. For instance, Zheng He was introduced to the aromatic taste of coffee, making him the first Chinese to savor this beverage. He was also the first person from the East to encounter Africa's majestic animal of giraffe.

Nowadays, in many places along his routes, Zheng He is still regarded as an embodiment of peace and friendship. When President Xi Jinping visited Kazakhstan and Indonesia in 2013, he proposed the major initiatives of building the Silk Road Economic Belt and the 21st-Century Maritime Silk Road. The name Zheng He came up many times, with Xi proudly presenting the voyages to the world as a business card of China.

Indeed, an edict accompanying Zheng He on his voyages set out principles for treating all nations equally, counseling against the strong bullying the weak, and promoting peace. In 1998, the *National Geographic* magazine named Zheng He as one of the navigators of the millennium. In laying out the reason, it said: "He led the largest fleet on Earth in the 15th century, consisting of nearly 30,000 battle-hardened soldiers, yet did not occupy an inch of foreign land."

The world today is undergoing profound changes unseen in a century. China cleaves steadfastly to the spirit of Zheng He. China has always adhered to the principles of peace, development, cooperation, and mutual benefit, adhered to the path of peaceful development, and worked to build a community of shared future for mankind. Since 2008, the PLA Navy has often dispatched fleets to carry out escort missions in the Gulf of Aden. These missions have

involved providing security escorts and conducting rescue operations for both Chinese and other ships in the region. The navy has also built a hospital ship, the famous *Peace Ark*, for maritime medical rescue operations. This vessel has ventured beyond national waters, delivering medical aid to many countries. Zheng He's voyages foreshadowed what his country would give to the world: diplomacy based on peaceful exchanges and cultural interactions. Six centuries after the expeditions, we can rightly continue to marvel at the feats of Zheng He and his crew. We can also be thankful that their compatriots of the 21st century learned from the example: Keep the flag of peace flying high.

Notes

The ***Peace Ark*** is the first standard ocean-going maritime hospital independently designed and built by China. This floating medical center has traveled across the seas to deliver humanitarian aid and free medical services to countries along the coastlines. Since commencing "Mission Harmony" in August 2010, it has visited 49 countries and regions, providing medical services to over 370,000 individuals. The hospital ship stands as a powerful symbol of a maritime community with a shared future.

Language points

1 **They predated Christopher Columbus' discovery of the new continent by more than half a century.**

predate: *v*. happen or exist earlier in history than sth. else（历史上）早于…发生或出现
The tradition of storytelling predates written language, as ancient cultures relied on oral narratives to preserve their history.

Note: This sentence places Zheng He's voyages in a global historical context and compares the timing of his voyages to that of Christopher Columbus', highlighting the significance of Zheng He's expeditions.

2 **Even with the largest fleet in the world at that time, China had no desire to exploit or plunder other lands and indeed did not.**

Note: This sentence contrasts China's military capability with its peaceful intentions, highlighting China's peaceful approach to exploration. This counters common stereotypes that associate rising powers with imperialistic expansion.

3 **Indeed, an edict accompanying Zheng He on his voyages set out principles for treating all nations equally, counseling against the strong bullying the weak, and promoting peace.**

counsel against: advise one against taking some action 建议拒绝
I was counseled against going for a walk alone at night.

4 Keep the flag of peace flying high.

keep the flag of … flying: support, defend, promote, or highlight the positive characteristics of sb. or sth. 支持；捍卫；维护

They had formed a literary club to keep the flag of culture flying.

Intercultural communication skill

Teaching suggestions

The purpose of these steps is to help Ss comprehend the concept and significance of cultural icons, learn how to identify and research them, and analyze their symbolic meanings. Furthermore, the focus is on guiding Ss to explore the enduring relevance of cultural icons across different periods and regions, and to connect them with contemporary issues, thereby enhancing their cross-cultural communication skills.

- Begin by defining cultural icons and discussing their significance in representing a culture's values and beliefs.
- Show examples of well-known cultural icons from different countries and discuss their meanings and impacts, such as the pyramids in Egypt.
- Guide Ss in identifying China's cultural icons that are recognized both nationally and internationally. Assign Ss to study successful examples (e.g., Zheng He) and explore the reasons behind their global resonance (e.g., historical impact, cross-cultural relevance).

Compare lesser-known icons (e.g., wax printing) with globally recognized ones (e.g., the Great Wall) to discuss recognition barriers.

- Guide Ss to research and analyze the deeper meanings and historical contexts of cultural icons. Have Ss practice explaining the connotations of selected icons, focusing on their symbolic significance and the stories they represent.
- Help Ss explore how cultural icons remain relevant across different periods and regions. Encourage Ss to find connections between historical icons and contemporary issues, such as linking Zheng He's voyages to modern international cooperation.

*** Remind Ss to access the video micro-lecture in the digital textbook to learn more about the skill on Ucampus.**

Sample answers

3

- **Bruce Lee**

Bruce Lee, an iconic figure of Chinese culture, was a martial arts legend and connected the East and the West through films like *Enter the Dragon*. His philosophy of Jeet Kune Do emphasizes adaptability and self-expression, breaking free from traditional constraints. In cinema, he portrayed invincible heroes, showcasing the depth of Chinese martial arts and challenging Western stereotypes of Asian people. His influence transcended borders, inspiring countless martial artists and filmmakers globally. Even today, his legacy endures in martial arts training methods, film narratives, and pop culture, symbolizing the fusion of Eastern philosophy with Western pop culture. His spirit of perseverance and innovation continues to resonate, serving as a source of pride for the Chinese people and a bridge connecting diverse cultures.

- **The Great Wall**

Constructed across many dynasties beginning in the 7th century BCE, the Great Wall was originally a military defensive system, embodying the indomitable spirit of perseverance of the Chinese nation. It protected trade routes along the ancient Silk Road, fostering dialogue and mutual learning between Chinese and Western civilizations. Today, embodying the Great Wall spirit of perseverance, resilience, and unity, the Chinese people remain dedicated to advancing national rejuvenation and fostering global harmony.

Reading

Text: Weaving a tapestry for a better world

Background information

Under the guidance of Xi Jinping Thought on Diplomacy, China has made significant strides in shaping its foreign policy and achieving remarkable diplomatic successes. President Xi's vision emphasizes building a global community of shared future, promoting global peace, fostering mutual respect, and advancing common development. These principles have become the cornerstone of China's approach to international relations, enabling the country to play an increasingly influential role on the global stage.

One of the most notable achievements under this framework is the Belt and Road Initiative (BRI), which has become a remarkable real-life endorsement of the nation's major-country diplomacy with Chinese characteristics. By connecting over 150 countries through infrastructure development, trade, and investment, the BRI has strengthened economic ties, enhanced connectivity, and fostered shared prosperity across continents. This initiative exemplifies China's commitment to win-win cooperation and inclusive development, offering opportunities for countries worldwide to participate in the global economy.

China has also demonstrated leadership in addressing pressing global challenges. It has taken decisive action in combating climate change, such as pledging to achieve carbon neutrality by 2060 and actively participating in international climate agreements. In the realm of public health, China has provided critical support to countries by supplying medical equipment, vaccines, and expertise, demonstrating its dedication to global solidarity. Additionally, China's efforts in poverty alleviation and sustainable development have set an example for other nations, contributing to the United Nations' Sustainable Development Goals.

Through its active engagement in multilateral diplomacy, including its participation in the United Nations, G20, BRICS, and other international organizations, China has advocated for a fairer and more inclusive global governance system. By promoting dialogue and cooperation in resolving regional conflicts and fostering stability, China has strengthened its position as a responsible major power.

Xi Jinping Thought on Diplomacy has guided China in forging partnerships based on equality, mutual benefit, and respect for sovereignty, building a new type of international relations. China's diplomatic achievements under this framework highlight its commitment to building a more equitable, peaceful, and interconnected world.

Notes

The **"BRICS+" cooperation model** is an initiative introduced by China to expand the scope of collaboration beyond the original BRICS member countries (Brazil, Russia, India, China, and South Africa). It aims to include other emerging economies and developing countries in various forms of cooperation. The model seeks to build a broader network of partnerships by

engaging non-BRICS countries, particularly those from the Global South, in dialogues and projects. It aims to strengthen ties between BRICS nations and other developing countries and to create a more inclusive and representative platform for addressing global challenges, such as economic inequality, sustainable development, and global governance reform. The "BRICS+" model has enabled BRICS to extend its influence by fostering stronger ties with other nations, enhancing its role as a platform for developing countries to voice their concerns and interests on the global stage.

*** T can guide Ss to study the multimodal annotations in the digital textbook on Ucampus.**

Language points

1 In the golden light of a tropical morning, Bandung was brimming with anticipation. (Para. 1)

Meaning: In the bright tropical morning, Bandung was full of hope and excitement.

Note: The phrase "golden light" refers to the warm, soft, and glowing sunlight that is characteristic of a tropical morning in Bandung. It evokes a sense of beauty, warmth, hope, optimism, tranquility, and a fresh start, as mornings with golden sunlight are often associated with **peaceful** and uplifting moments. It also sets a positive tone for the anticipation and excitement mentioned later in the sentence.

brim with: be full of sth. 充溢；充满
Her eyes brimmed with tears of joy as she received the unexpected gift.

2 The world was split by Cold War tensions, yet within the grand walls of the Independence Building, leaders from 29 Asian and African nations and regions gathered under the banner of unity. (Para. 1)

Meaning: At a time when the world was divided by the Cold War, leaders from 29 Asian and African nations and regions gathered in the Independence Building, driven by a shared vision of unity.

under the banner of: used when stating the principle or belief that makes sb. do sth. 在…旗帜下；在…口号下

The organization works under the banner of environmental protection.

Note: The Independence Building was the venue of the Bandung Conference. T can guide Ss to examine the illustration in the Student's Book and encourage them to talk more about the conference.

3 Beneath the surface of hope, however, the air was tense. (Para. 1)

Note: This sentence contains imagery, particularly abstract imagery. It uses descriptive language to evoke feelings and create a vivid emotional atmosphere in readers' mind. Imagery is a literary device used in poetry, novels, and other writing that uses description that

appeals to the readers' senses to create an image or idea in their head. The phrase "beneath the surface of hope" creates a vivid mental picture, suggesting that hope is like a visible layer, while tension lies hidden underneath. This imagery helps the readers see the emotional contrast. Imagery can be created using rhetorical devices like similes, metaphors, or onomatopoeia.

This sentence employs the following rhetorical devices to create imagery: 1) Contrast (Antithesis): The sentence contrasts "hope" with "tense air," showing the difference between outward optimism and hidden tension. This juxtaposition emphasizes the complexity of the situation, where positive appearances mask hidden tensions. 2) Metaphor: "surface of hope" metaphorically represents the outward appearance of hope. These rhetorical devices work together to create a nuanced description, conveying both the visible optimism and hidden tension in the situation. A similar example is as follows:
Her smile was warm and bright, yet it masked the quiet storm of doubt within.

4 Fierce debates simmered and dissent was brewing, particularly as voices of opposition against communist states began to rise. (Para. 1)

Note: In this sentence, "simmered" describes the debates as a state that was already established and ongoing, which aligns with the past tense, while "was brewing" describes dissent as an action in progress, which aligns with the past progressive tense. The use of "simmered" in the past tense and "was brewing" in the past progressive tense reflects the distinction between a static state (debates that were already happening) and a dynamic process (dissent that was still forming). This combination effectively conveys the nuanced relationship between the two actions in the sentence.

5 On the grand stage of the UN, the curtain rose on a new era of diplomacy for China, revealing a dynamic scene of international cooperation. (Para. 3)

Note: The phrase "the curtain rose" is a theatrical metaphor, likening the start of China's new diplomatic era to the opening of a stage performance. At the theater, the curtain rises at the beginning of the first act, marking the start of what is about to unfold. Similarly, "on" here connects the metaphorical action (the curtain rising) to the subject being revealed (a new era of diplomacy). "The curtain rose on" is a standard idiomatic phrase in English, often used metaphorically to describe the beginning or unveiling of something significant. It's a figurative way of saying that something new or important has started.

6 Currently, about 30 countries are knocking on the "BRICS door." (Para. 4)

Note: The metaphor "knocking on the 'BRICS door'" symbolizes that these countries are expressing interest or making efforts to join the BRICS group, much like someone knocking on a door to request entry.

7 This spirit of cooperation was evident in the golden-hued autumn of 2013 when President Xi Jinping visited Kazakhstan and Indonesia and unveiled a new vision that harked back to the legendary Silk Road. (Para. 5)

Note: Literally, "golden-hued" refers to the rich golden tones found in autumn. Symbolically, the "golden-hued autumn" represents a time of harvest and joy, with "golden" evoking a sense of abundance, warmth, and prosperity. In this context, "golden-hued autumn of 2013" vividly captures the significance of the moment, symbolizing a period of fruitful cooperation and historical importance as President Xi Jinping unveiled the new vision.

The spirit of cooperation was clearly demonstrated in the autumn of 2013 when President Xi Jinping visited Kazakhstan and Indonesia, introducing a new vision rooted in the legacy of the ancient Silk Road.

8 **These initiatives, collectively known as the Belt and Road Initiative (BRI), would traverse deserts and oceans, span thousands of miles of rivers and mountains, and expand the grand tapestry woven by civilizations' quest for progress over the millennia. (Para. 5)**

Meaning: These initiatives, collectively called the Belt and Road Initiative (BRI), would cross deserts and oceans, cover thousands of miles of rivers and mountains, and extend the rich tapestry woven by civilizations' pursuit of progress over the centuries.

Note: The phrase "grand tapestry" serves as a metaphor, representing the interconnected history and progress of civilizations. This metaphorical language elevates the description from physical infrastructure to a conceptual level of cultural exchange, suggesting that civilizations are intricately linked and their collective achievements form a beautiful, cohesive whole.

9 **By weaving a tapestry of interconnectedness and mutual benefit, China envisions a world where collaboration and mutual understanding will unite the global community, creating a fairer, more equitable, and harmonious global environment, where humanity will thrive as one. (Para. 7)**

Meaning: Through fostering global connectivity and shared prosperity, China promotes a vision of international cooperation built on mutual understanding. This approach seeks to unify nations in creating a more just, balanced, and peaceful world order where all societies can flourish together.

Note: The phrase "weaving a tapestry of interconnectedness and mutual benefit" is a metaphor. It compares global cooperation and shared benefits to the act of weaving a tapestry. This metaphor makes the abstract concept of international collaboration more tangible and vivid by likening it to the creation of a solid and intricate piece of art.

Translation

编织美好世界

1 热带清晨的金色阳光洒向万隆，为这座城市镀上希望的光芒。时值 1955 年，世界正因冷战的紧张局势而陷入分裂。然而在独立大厦宏伟的围墙内，来自 29 个亚非

国家和地区的领导人高举团结的旗帜，齐聚一堂。不过，在希望的表象之下，空气中却弥漫着紧张的气息。激烈的争论在暗中酝酿，分歧也在滋生，当反对共产主义国家的声音开始高涨时，情况更是如此。

2 正是在这压力俱增的时刻，中国代表团挺身而出。周恩来总理以平静而坚定的姿态，提出了“求同存异”的主张。他平和的话语化干戈为玉帛。随着会议的推进，周恩来表示愿意在和平共处五项原则的基础上，同各国团结合作。在此基础上，会议提出了处理国际关系的万隆会议十项原则，引起全球共鸣。在万隆会议上，新中国展现出一个注重和平发展的国家形象，这一角色在随后的几十年里不断与时俱进。

3 1971 年 10 月 25 日，第 26 届联合国大会通过第 2758 号决议，恢复中华人民共和国在联合国的合法席位。大会堂内顿时掌声雷动。在联合国的宏大舞台上，中国外交新时代拉开帷幕，展现出国际合作的勃勃生机。联合国这个汇聚众多国家的国际组织，成为中国开展多领域、多边外交的重要场所。从另一个角度来看，中国在联合国合法席位的恢复，让世界四分之一的人口拥有了国际话语权。至此，联合国在规模和构成上才真正称得上是一个全球性的组织。

4 50 年来，中国始终坚定不移地维护以联合国为核心的国际体系，不断维护与践行真正的多边主义。金砖国家（BRICS）充分体现了中国参与全球治理、推动真正多边合作的坚定决心。作为南南合作的典范，金砖国家为新兴市场国家和发展中国家加强团结合作、维护共同利益提供了重要平台。作为金砖国家的创始成员国，中国为金砖国家的发展做出了重要贡献。值得一提的是，在 2017 年担任金砖国家主席国期间，中国提出了开创性的“金砖 +”合作模式，首次在全球范围内拓展伙伴关系。2024 年 1 月，金砖成员国的数量增至 10 个。目前，约 30 个国家正在叩响“金砖之门”。金砖国家提高了发展中国家的声音，进一步推动构建更加公平、民主的国际秩序。

5 合作精神在 2013 年金秋时节得以彰显。习近平主席在访问哈萨克斯坦和印度尼西亚之际，勾勒出一个源于传奇丝绸之路的崭新愿景。他提出共建“丝绸之路经济带”和 “21 世纪海上丝绸之路”的重大倡议。这些倡议统称为“一带一路”倡议，它将穿越沙漠和海洋，跨越千山万水，拓展人类文明数千年追求进步所织就的宏大图景。

6 中国秉持“共商共建共享”原则，已同 150 多个国家和 30 多个国际组织签署了共建“一带一路”合作文件，推动“一带一路”倡议蓬勃发展，使其成为深受欢迎的国际公共产品和国际合作平台。中欧班列是其中亮点。它横贯亚欧大陆，通过三条主要物流走廊连接中国城市与欧洲主要枢纽，沿途经停多个重要边境口岸。这条铁路网络将货物运送至欧洲 25 个国家的 227 个城市以及亚洲 11 个国家的 100 多个城市。截至 2024 年 11 月，中欧班列累计开行超过 10 万列，运输货物超过 1,100 万标

准箱，总货值超过 4,200 亿美元。这条不断壮大的“钢铁驼队”稳定地运送着各类货物，从日常用品到电动汽车，极大地促进了亚欧之间陆路物流与贸易。

7 中国外交历程顺应着国际形势的变化，彰显出对构建“人类命运共同体”的坚定承诺。这一愿景与和平共处五项原则一脉相承，为这些经久不衰的理念注入了新活力，并在如今通过“一带一路”倡议结出硕果。中国通过编织互联互通、互利共赢的网络，擘画出一个全球愿景：在协作发展和相互理解中，全球社会紧密团结在一起，打造一个更加公平、公正、和谐的世界，让人类作为一个共同体蓬勃发展。

Intercultural communication skill

Teaching suggestions

The aim of these steps is to help Ss understand the concept and function of metaphors in communication, particularly their cultural dimensions, and to analyze how they convey complex ideas succinctly. Additionally, the focus is on enabling Ss to create effective original metaphors, thereby enhancing their creativity and cross-cultural communication skills.

- Define metaphors and explain their role in communication.
- Provide Ss with culturally diverse metaphors (e.g., China's "tapestry of civilizations" vs. Western "melting pot"). Have them dissect the symbolism.
- Explain how metaphors simplify abstract ideas in the text (e.g., "global cooperation as a tapestry").
- Guide Ss to create original metaphors. First, identify a complex concept (e.g., climate change) and list its core traits (e.g., interconnectedness, urgency). Second, brainstorm analogies (e.g., "domino effect," "hourglass") and vote on the most vivid option. Third, refine metaphors collaboratively (e.g., Climate change is a domino set in motion, and once it starts falling, it's hard to stop the chain reaction that disrupts the balance of our natural world).

*** Remind Ss to access the video micro-lecture in the digital textbook to learn more about the skill on Ucampus.**

Sample answers

- **"On the grand stage of the UN, the curtain rose on a new era of diplomacy for China, revealing a dynamic scene of international cooperation." (Para. 3)**

  The metaphors "grand stage of the UN" and "the curtain rose" frame diplomacy as a theatrical performance, symbolizing the UN as a platform for global engagement. It not only brings to life the idea of China stepping into a new diplomatic phase at the UN, but also evokes vivid imagery of drama and transformation, emphasizing China's proactive role in the new era.

- **"Currently, about 30 countries are knocking on the 'BRICS door'." (Para. 4)**

  The metaphor of "knocking on the 'BRICS door'" vividly illustrates the eagerness of countries to join the BRICS group. It simplifies the complex process of seeking membership into a relatable visual image, showing the group's attractiveness and influence.

- **“BRICS amplifies developing countries’ voices” (Para. 4)**
  The metaphor uses “voices” to symbolize the opinions, perspectives, or positions of developing countries, and “amplifies” suggests strengthening or making these perspectives more impactful and noticeable.
- **“this ever-growing ‘steel caravan’” (Para. 6)**
  Referring to the China-Europe Railway Express as a “steel caravan” draws a connection between modern transportation infrastructure and historical trade routes. This metaphor emphasizes continuity and the enduring importance of trade connections across regions.

China’s Global Development Initiative, Global Security Initiative, and Global Civilization Initiative provide a feasible path and are a crucial cornerstone for building a global community of shared future. These initiatives uphold the spirit of openness and inclusiveness, aiming to address development challenges, tackle security issues, and promote mutual learning among

civilizations. They demonstrate China's theoretical innovation and practical contributions to global governance, reflect its steadfast commitment to promoting world peace and prosperity, and breathe greater certainty and hope into an uncertain world.

Critical thinking

Sample answers

1

Zheng He's voyages built connections, fostered trade, and promoted harmony among nations. His spirit of peaceful exploration, mutual respect, and cultural exchange is deeply embedded in China's modern diplomatic philosophy. One significant example is the Belt and Road Initiative (BRI), which aims to connect countries across Asia, Europe, and Africa through infrastructure, trade, and cultural exchange. This initiative reflects Zheng He's legacy of creating mutually beneficial relationships and enhancing global connectivity. Additionally, China's active participation in multilateral organizations like the United Nations and its crucial role in addressing global challenges, such as climate change and poverty alleviation, demonstrate its commitment to peaceful cooperation and shared progress, echoing Zheng He's diplomatic ethos.

2

As a university student, I believe I can play a meaningful role in promoting mutual learning between civilizations and fostering cultural exchange. First, I can participate in international exchange programs or cultural events organized by my university. These opportunities allow me to interact with students from diverse backgrounds, share my culture, and learn about theirs, creating deeper connections and understanding.

Second, I can use social media to share my culture with a global audience. By posting stories, photos, or videos about our cultural traditions, I can spark conversations with people from different parts of the world and learn about their cultures in return.

Finally, I can actively seek collaboration with students from different cultural backgrounds on academic or community projects. Working together not only helps us exchange ideas and perspectives but also fosters mutual respect and understanding.

Through these actions, I can contribute to building a more inclusive and harmonious global community, where civilizations learn from one another and grow together.

Exploring the world

Amid a fragile global economy, persistent security challenges, and ongoing conflicts between civilizations, China has proposed building a global community of shared future. With the Global Development Initiative, Global Security Initiative, and Global Civilization Initiative as action plans, China calls on nations around the world to unite, tackle global challenges, and foster peace, development, and mutual understanding to achieve sustainable prosperity. The Understanding China section highlights China's efforts to build a global community of shared future, and the Exploring the World section examines how other countries share similar ideas with China and work toward building a better future together. The text highlights Africa's "Agenda 2063" for common prosperity, the EU's GDPR for universal security, and the Conference on Dialogue of Asian Civilizations for cultural exchange.

T should focus on teaching the actions various countries have taken to promote prosperity, peace, and cultural exchange around the world. Ss should grasp how initiatives like "Agenda 2063" and the GDPR contribute to regional and global stability and progress, and how cultural dialogues enrich mutual learning. The challenge lies in guiding Ss to deeply analyze the complexities of international cooperation and civilization exchanges. It involves understanding diverse cultural contexts and the long-term impacts of such collaborative efforts.

The text offers an excellent opportunity for Ss to compare global initiatives aimed at creating a better future with China's vision of building a global community of shared future, along with its corresponding actions. T should guide Ss to learn from the global efforts and share China's perspectives and contributions, and inspire them to actively contribute to shaping a better world.

Text: Moving forward: Cultivating a tomorrow together

Notes

Launched in 2018, the **Single African Air Transport Market (SAATM)** is a flagship project of the African Union's "Agenda 2063." It aims to liberalize the African aviation industry, transforming it into a single market by deregulating air services and opening regional air markets to transnational competition. The undertaking is expected to support the advancement of the continent's socio-economic development and to increase intra-African air connectivity.

The term **Bedouin** is used to describe a large group of people who originated in the Arabian Peninsula but have also spread throughout the Middle East and North Africa. The Bedouin people are culturally, linguistically, and religiously part of a wider Arab society. "Bedouin" has historically been used to refer to those who practiced the traditional nomadic pastoralist way of life, raising camels and other livestock for grazing. However, most Bedouin people live settled lives today, either on farms or in cities.

Language points

1 It is therefore imperative that countries act together to build a better world. (Para. 1)

imperative: *a*. extremely important and needing to be done or dealt with immediately 紧急的；极重要的

Note: The word "imperative" is commonly used in the following structures: "It is imperative that ..." and "It is imperative (for sb.) to do sth." For example:
It is imperative for governments to combat climate change now, as delaying action could have serious consequences.

This sentence serves as a call to action for global collaboration.

2 … as nations join hands to share resources and tackle common challenges … (Para. 2)

join hands: work together with another organization, country, etc. to help and support each other （与另一个组织、国家等）联手，联合起来
Nations should join hands to address severe global challenges and collaboratively build a harmonious and sustainable future.

3 The General Data Protection Regulation (GDPR), which came into effect in 2018 after nearly four years' discussions and a two-year transition period, stands as a testament to this effort. (Para. 7)

stand as a testament to: serve as evidence or proof of sth. 作为…的证明
The company's growth over the years stands as a testament to its successful business strategies.

Note: This sentence metaphorically frames the GDPR as a symbolic achievement. The "two-year transition period" refers to the time from 2016, when the GDPR was officially adopted, to 2018, when it came into effect, allowing EU member states and businesses sufficient time to adapt to and prepare for its requirements, ensuring smooth implementation.

4 Its far-reaching impact has influenced global corporations, governments, and Internet users … (Para. 8)

far-reaching: *a*. if you describe actions, events, or changes as far-reaching, you mean that they have a very great influence and affect a great number of things 影响深远的
The invention of the Internet has had a far-reaching impact, transforming communication and commerce globally.

5 This day serves as a reminder of the wealth of the world's cultures … (Para. 12)

reminder: *n*. [C] sth. that makes you notice, remember, or think about sth. 起提醒作用的东西

Note: Pay attention to the common collocations "reminder of" and "serve / act as a reminder." For example:

The ruined building was a constant reminder of the war.
The cold served as a reminder that winter wasn't over yet.

6 Living in the same global village, humanity has increasingly emerged as a community in which everyone carries within themselves a little bit of others. (Para. 13)

Note: The term "global village" is used as a metaphor for an interconnected world. The sentence suggests that as humanity becomes more interconnected, people increasingly embody aspects of others within themselves. This could refer to shared values, cultural influences, mutual understanding, or empathy that arise from living in a globally connected community. Essentially, it emphasizes the idea that no one exists in isolation, and everyone is shaped, at least in part, by their interactions and connections with others around the world.

Translation

携手前行：共创美好未来

1 当今世界互联互通，且充满不确定性，我们的选择不仅深刻影响当前局势，还关乎子孙后代的福祉。因此，各国必须携手共建更美好的世界。不过，这个更美好的世界究竟意味着什么？我们又该如何实现这一愿景？

2 更美好的世界意味着全球各国携手合作、共同发展。各国齐心协力，共享资源，共面挑战，为全球可持续发展铺平道路。

3 以非洲为例，非洲联盟成员国正在《2063 年议程》框架下开展合作。这项 2015 年制定的发展蓝图旨在用 50 年的时间建设一个繁荣、一体化的非洲大陆。这一倡议呼吁非洲社会各领域采取集体行动，是南南合作的典范。

4 实现《2063 年议程》的关键在于在基础设施、教育、科学、技术、艺术和文化等领域开展旗舰项目。其中，单一非洲航空运输市场（SAATM）尤为引人注目。该项目旨在通过航空运输自由化和监管流程标准化，促进非洲大陆内部的互联互通和经济一体化发展。这一举措不仅促进了非洲内部的旅行往来，还降低成本，提升通达性，推动了经济一体化进程。

5 这些举措成效显著。在首个十年实施期结束后，2022 年和 2023 年非洲国内生产总值（GDP）增长率分别为 4.1%和 3.1%，高于同期全球 3.2%和 2.7%的平均预期增长率。

6 更美好的世界需要国际社会团结一致、共同提升环境安全。

7 随着科技的飞速发展，网络安全正演变为日益复杂且互相关联的重大挑战。作为区域一体化的典范，欧盟已采取措施，集合成员国的力量来应对这一挑战。其中，《通用数据保护条例》（GDPR）在经过长达四年的深入讨论及两年的过渡期，于 2018 年正式实施，成为欧盟应对网络安全挑战的有力证明。《通用数据保护条例》规定

了个人数据处理和保护的规则和指南，不仅适用于欧盟全部 27 个成员国，而且涵盖了跨境数据处理的相关条款。

8 为确保《通用数据保护条例》的顺利实施，各欧盟成员国监管机构通力协作，优化流程，共享专业知识，强化协调联动。该条例被视为全球最严格的隐私和安全法规，可对违规者处以高达数千万欧元的巨额罚款。其深远影响已延伸至全球范围内的企业、政府机构和互联网用户，成为多国制定数据保护法规的重要参考。

9 除《通用数据保护条例》外，过去几十年间还涌现了多项国际合作成果，如《布达佩斯网络犯罪公约》《马拉博协议》等。这些公约通过促进信息共享、提升能力建设，以及开展联合威胁评估，使国际社会更有效地应对不断变化的网络形势。

10 更美好的世界在不同文化思想的交流与互鉴中蓬勃发展。

11 亚洲为此提供了生动例证。从阿拉伯半岛贝都因人的游牧生活方式，到东南亚独特的岛屿文化，再到中国深厚的儒家传统，亚洲孕育了古老而璀璨的文明。为加强对话、深化合作，2019 年举办了以“亚洲文明交流互鉴与命运共同体”为主题的亚洲文明对话大会。这一开放包容的对话平台举办了 110 多项活动，包括嘉年华、文化展览、美食节和艺术展览，彰显了亚洲文明的蓬勃魅力。在嘉年华期间，各国艺术家同台献艺，精彩呈现了激昂的中国鼓、绚丽的印度舞蹈、悠扬的中亚民歌以及古老的南亚传统表演。亚洲正通过其文明与艺术向世界传递着希望，展现出一个既深植于自身悠久传统，同时又积极寻求相互学习与融合发展的区域形象。

12 文明间的交流与对话已超越亚洲大陆。经中国倡议，联合国一致通过将每年 6 月 10 日设立为“国际文明对话日”。这个节日提醒人们，世界文化多姿多彩，跨文化对话蕴含着丰富的内涵和强大的力量。

13 人类生活在同一个地球村，逐渐形成一个你中有我、我中有你的共同体。只有各国都致力于追求共同利益，和谐共处，合作共赢，才能携手共建一个开放包容、清洁美丽、持久和平、全民安全、共同繁荣的世界。

Live interview

Sample answers

[Interviewer] Welcome to today's discussion on building a better world together. Our panel includes experts on diplomacy from the African Union, the European Union and Asia. We also have a global cooperation advocate. Thank you all for being here.

[Interviewer's question to AU delegate] Faced with the pressing need for economic development, how are African countries working to advance their economies?

[AU delegate] African nations are striving for economic growth through initiatives like "Agenda 2063," which serves as a blueprint for sustainable development and prosperity. It focuses on industrialization, infrastructure development, and education to create jobs and foster regional integration.

[Interviewer] Has it made any progress?

[AU delegate] Yes. This initiative has driven Africa's GDP growth above global averages in recent years.

[Interviewer] That's impressive.

[Interviewer's question to EU delegate] In recent years, non-traditional security threats, such as cyberattacks, migration crises, and climate change, have increasingly outpaced conventional risks in severity and global harm. How has the EU addressed these challenges?

EU delegate: The EU has addressed non-traditional security threats like cybersecurity through its collective strength. For example, it enacted the General Data Protection Regulation (GDPR) to protect personal data and privacy. The GDPR applies to all 27 EU member states and includes provisions for cross-border data processing.

[Interviewer] Besides the GDPR, have there been other cooperative efforts in this field?

[EU delegate] There are various cooperative treaties and legal frameworks concerning digital security, such as the Budapest Convention on Cybercrime and the Malabo Convention.

Interviewer: That's good news to hear. **[Interviewer's question to Asian delegate]** Given that

many of the world's major conflicts have cultural dimensions, how is Asia fostering cultural dialogue to address these challenges?

Asian delegate: Asia fosters cultural dialogue and deepens cooperation via events like the 2019 Conference on Dialogue of Asian Civilizations, featuring activities such as carnivals and cultural exhibitions.

[Interviewer] The UN unanimously adopted China's proposal, designating June 10 as the International Day for Dialogue among Civilizations. Why was this day established?

Asian delegate: This day was established to remind the world of the wealth of cultures and the enriching power of intercultural dialogue.

Interviewer: Thank you.

[Interviewer's question to global cooperation advocate] Despite progress, what barriers hinder global collaboration?

Global cooperation advocate: One major challenge is aligning different national interests with global goals.

[Interviewer] How can we respond to this challenge?

Global cooperation advocate: We need stronger multilateral institutions and inclusive decision-making. Successes like "Agenda 2063" and the GDPR show the power of collaboration. Asia's cultural initiatives also demonstrate how soft power can enhance cooperation. Effective global cooperation requires combining economic, security, and cultural efforts for mutual reinforcement.

[Interviewer] Thank you all for these insightful perspectives. It's encouraging to see how different regions are addressing common challenges through innovative approaches. Let's turn dialogue into action.

Communicating with the world

Additional notes

Many Model UN conferences require delegates to submit position papers on their topics before a conference starts. It helps the delegates prepare for the conference by encouraging them to conduct research and by allowing them to organize their assigned country's positions and plans. Position papers typically span one or two pages with three or four paragraphs. They should be written from the perspective of the government of the country you represent.

To ensure effective communication, position papers should adhere to a diplomatic tone:

- Delegates should refrain from using personal pronouns such as "I" or "we." Please refer to the country you are representing in the third person, e.g., "China believes …"
- Delegates should adopt a neutral approach and avoid confrontational language. For example:

  Confrontational:

  - *Some nations are responsible for the lack of progress in global security.*
  - *China's approach is superior to other nations' methods.*

  Neutral:

  - *Global security challenges demand cooperation and shared responsibility.*
  - *China's approach offers valuable insights that can complement global efforts.*

For evaluation, consider the following perspectives:

- **Content:** Ensure the paper is focused on the assigned topic and provides a comprehensive overview of your country's stance. Include specific policies, historical actions, and relevant treaties or agreements. Support your position with credible data, statistics, and examples.
- **Structure:** Divide the paper into well-defined sections. Use headings to make the paper easy to navigate. Ensure ideas are presented in a logical order. Keep the paper concise and focused. Most MUN position papers are limited to one or two pages, so prioritize key points and avoid unnecessary details.
- **Language:** Use formal and diplomatic language throughout the paper. Avoid slang, informal expressions, or overly casual phrasing. Write confidently and persuasively to assert your country's position. Use strong but respectful language to convey your arguments effectively. Ensure the paper is easy to understand, even for readers who may not be familiar with specific technical terms. Be respectful of other perspectives and avoid aggressive or confrontational language.
- **Communication:** Be mindful of cultural differences and avoid language that could be misinterpreted or considered offensive. Highlight shared goals and values to foster unity.

Frame your country's position within the broader context of international cooperation. Show how your proposals benefit not only your country but also the global community. Use compelling phrasing and examples to make your paper memorable and persuasive to international audiences.

Sample answers

Committee: United Nations General Assembly

Country: People's Republic of China

Topic: China's vision for a better world: Promoting a more prosperous, secure, and civilized global community

Amid growing global challenges such as poverty, conflict, and cultural misunderstandings, the People's Republic of China advocates for "a global community of shared future," a vision where nations unite to pursue common goals and build a better world for all.

China's position

From the ancient Silk Road to Zheng He's grand voyages, China has consistently upheld the values of mutual respect, peaceful cooperation, and shared prosperity. China actively contributes to global development and security through initiatives like the Belt and Road Initiative (BRI) and UN peacekeeping missions. Events such as the Conference on Dialogue of Asian Civilizations promote cultural exchange, fostering mutual understanding and cooperation globally. Domestically, China's poverty alleviation programs and green development policies demonstrate its commitment to sustainable growth and global responsibility. Like roots that nurture a strong tree, internal stability supports global contributions.

Proposed solutions

To build a better world where nations enjoy prosperity, universal security, and lasting peace, China proposes the following measures:

- **Strengthening multilateralism:** China calls for greater collaboration within international organizations such as the United Nations, G20, and BRICS to address global challenges collectively.
- **Promoting ecological security:** China advocates for increased investment in renewable energy and sustainable infrastructure projects, particularly in developing countries, to support the global transition to a low-carbon economy.

- **Enhancing cultural exchange:** China encourages initiatives that foster mutual understanding among civilizations, such as cultural programs, academic exchanges, and people-to-people diplomacy.

Conclusion

China's vision for a better world is grounded in the principles of peace, development, and inclusivity. By fostering international collaboration and promoting sustainable development, China aims to contribute to a global community united by shared goals and mutual understanding. As the world navigates complex challenges, China remains committed to building bridges and working hand-in-hand with all nations to create a brighter future for mankind.

Self-reflection

Understanding China	1	I can explain how Zheng He's spirit of peaceful exploration and cultural exchange inspires initiatives like the BRI.
	2	I can highlight how the BRI strengthens economic ties, builds infrastructure, and promotes shared prosperity worldwide.
	3	I can describe how the Chinese delegation emphasized unity, peaceful cooperation, and mutual respect among nations at the Bandung Conference.
	4	I can describe China's leadership in promoting economic growth, sustainable development, and multilateral dialogue within BRICS.
Exploring the world	1	I can describe how "Agenda 2063" focuses on sustainable development, economic growth, and regional integration in Africa.
	2	I can explain how the GDPR strengthens data protection and promotes global cybersecurity standards.
	3	I can describe how the Conference on Dialogue of Asian Civilizations fosters dialogue, encourages cultural appreciation, and builds mutual understanding among Asian nations.
Communicating with the world	1	I used the Silk Road and Zheng He as cultural icons in my position paper.
	2	I used the metaphor of "building bridges" to convey the meaning of "overcoming barriers and creating mutual trust or friendship" in my position paper.
